

## ***Coaching Tool Kit***

In the past few months, **CAM** has joined ***dorema Coaching Partnership*** in developing a Coaching Tool Kit for ministries who want to utilize coaching within their organizations. This resource is designed for use by those who have had some coach training to share within their ministry context.

Typically, a trained coach will introduce coaching to a congregation or denominational group using the concepts and tools included in the Coaching Tool Kit.

There are any number of settings in which the Coaching Tool Kit can be used to increase ministry effectiveness. A sampling is below:

- Small group leaders
- Women's ministry leaders
- Youth ministries
- Lay leaders
- Mission organizations
- Christian-lead companies

The Coaching Tool Kit includes:

- Participant materials for 20 people – approximately 10 hours of coach training that can be divided into two days. We've used it in a variety of formats and recommend a Fri night/Saturday workshop format.
- Facilitator notes
- Power point slides
- Personal Coaching Style Inventory for 20 people
- Set of 180 Visual Explorer full color postcard size pictures that are suited for travel
- Additional participant materials can be ordered separately, after the initial order for the Coaching Tool Kit.

Shipping and handling are additional

For information or to order the Coaching Tool Kit, email [info@ca-ministries.com](mailto:info@ca-ministries.com)
